Coach/Estate and Long-term Care Issues

Dear Senior Center Director (we can put her name here):

It sounds strange to say I'm gearing up for the fall, but I have good reason. I would like to prepare now for fall presentations at your senior center. I believe I can add the highest value to the seniors that attend your center and give them peace of mind. I am very flexible to your openings and the best time to meet for my short (free) presentations.

There is so much confusion with seniors, families and caregivers I meet with:

- Financial Power of Attorney vs. Last Will and Testament
- Healthcare Power of Attorney vs. Living Will
- General documents needed vs. Personal documents needed

It can all be so confusing. What if everyone in the family doesn't agree? How should decisions be made? I can help by revisiting financial decisions made from prior years with their needs and their family's current situation along with healthcare changes. This will give them peace of mind to avoid a financial crisis and family unrest.

I sponsor Joey Tomsick's radio show, Our Aging World on WINT Integrity Radio, and have been affiliated with the senior community in my own practice. I know that many times seniors think they are covered with their personal documents and later come to find there are gaps or outdated information that no longer pertain. I feel I can help.

I would like to set-up a date and time to meet with you or simply set-up a presentation in the fall. I can best be reached at 216-533-2632 or via email at ah2@aghehr.com.

Sincerely,

Albert Hehr, Jr.
Esquire
